AT&T is looking to fill 75 positions at locations across the state of Arkansas.

The positions include technicians to help with U-Verse installation, sales consultants and customer service representatives for the company's call centers and retail stores. They are also hiring retail store managers.

In the Spring, AT&T announced plans to step up their veteran recruiting efforts across the country with the goal of hiring 5,000 veterans and their family members over the next five years.

Veterans are encouraged to use AT&T's [veteran career site](#) which includes tools for veterans to match their military skills and training with certain jobs with the company.
